Subject: RE: Lower Passaic River RI/FS - Review of CFT partitioning framework tests & modeling coordination

Hi James,

Thanks for the call last Thursday. The materials presented are attached (sorry for the delay).

A couple of notes on the attachments:

- In the sorption slides (Sorption_update_20170316.pdf), we noted that one slide (#15, TCDD longterm bed comparison) was showing an older base run and so it has been updated for consistency. This update has no impact to the findings discussed during the call.
- The list of metrics for evaluating the ST versions (CFT_metrics_to_evaluate_ST_20170316.pdf) has not been updated to reflect our discussion. This list will be augmented with the additional items that Ed and you requested, such as water column model-data crossplots and detailed time series.

Please let me know if you need anything else or have questions.

Thanks,

Peter

Peter,

Could you send copy of the slides that you showed this morning?

Thanks,

James

When: Thursday, March 16, 2017 11:00 AM-12:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: webex

James and Ed –

As discussed, a call to review test simulations of the partitioning frameworks under consideration. We can also coordinate on other CFT topics in prep for the upcoming modeling meetings.

Thanks,

Peter
